

Viral Hepatitis (Hepatitis B & C)

About This Resource

These programs provide testing, vaccination, treatment, and ongoing support for people living with or at risk for Hepatitis B (HBV) and Hepatitis C (HCV). They include public-health services, community clinics, assistance programs, and advocacy organizations that help individuals access care, medications, and reliable education. Whether you're newly diagnosed or already in treatment, these resources can help you stay connected and supported.

Testing, Vaccination & Local Care

Local options for screening, immunization, and specialty treatment:

- **Texas Liver Care**

Comprehensive evaluation and treatment for HBV/HCV, plus vaccination of close contacts.

 (682) 427-0200 |  texaslivercare.org

- **Tarrant County Public Health – Immunization & Testing**

 (817) 884-1111 |  tarrantcounty.com/en/public-health.html

- **Dallas County Health & Human Services**

 (214) 819-2000 |  dallascounty.org/departments/dchhs

- **Prism Health North Texas**

 (214) 521-5191 |  prismntx.org

Medication & Treatment Support

Programs that help cover or coordinate antiviral therapy and related care:

- **HRSA Community Health Centers**

 findahealthcenter.hrsa.gov

- **Texas HIV Medication Program (THMP)**

State program that manages HIV medication access and coordinates referrals for hepatitis treatment.

 dshs.texas.gov/hivstd/meds

- **Manufacturer Assistance Programs**

- **Gilead Support Path**

 (855) 769-7284 |  mySupportPath.com

- **AbbVie Patient Assistance Foundation**

 (800) 222-6885 |  abbviepaf.org

- **ViiVConnect (HBV)**

Last Updated March 2026

Trusted organizations providing patient education, navigation tools, and awareness events:

- **World Hepatitis Alliance** —  worldhepatitisalliance.org
- **American Liver Foundation** —  liverfoundation.org
- **Hepatitis B Foundation** —  hepb.org
- **Hepatitis C Mentor & Support Group** —  hepatitiscmsg.org
- **CDC Viral Hepatitis Program** —  cdc.gov/hepatitis

Global Awareness & World Hepatitis Day

International efforts to eliminate viral hepatitis through prevention and education:

- **World Hepatitis Day** (July 28 each year) —  worldhepatitisday.org
- **WHO Hepatitis Program** —  WHO Hepatitis [who.int]

Research & Clinical Trials

• ClinicalTrials.gov

National database of ongoing studies for viral hepatitis B and C, including antiviral, immune, and cure-focused research.

• Evidentis Clinical Research

Clinical trial center offering opportunities to participate in clinical studies related to liver and metabolic health.

 (682) 651-1112 |  evidentisresearch.com

- **Texas Liver Care** can also connect you with studies offered through Evidentis and other collaborating research networks.

Participation in clinical research helps advance future treatments and may expand access to promising therapies under expert medical supervision.

TLC Tips – Protecting Your Liver & Preventing Transmission

- Get vaccinated for Hepatitis A and B if you are not immune, and ensure close contacts are also protected
- Take antivirals exactly as prescribed; do not skip or share doses.
- Avoid sharing razors, toothbrushes, nail clippers, or needles; practice safer sex to reduce transmission risk.
- Limit alcohol and discuss any medications or supplements with your clinician to prevent liver injury.
- Keep copies of lab results, imaging, and vaccination records; bring them to each medical visit for continuity of care.
